Flächeninhalt gemischt

Sechs Formen, Fläche und Umfang

Name: _____

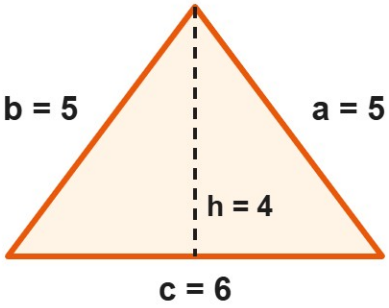

Berechne Flächeninhalt A und Umfang U. Alle Maße sind in Zentimetern. Achte darauf, welche Formel zu welcher Form gehört.

1

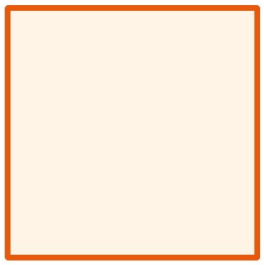

A = ____ cm² **U =** ____ cm

2

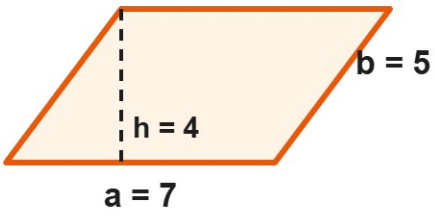

A = ____ cm² **U =** ____ cm

3

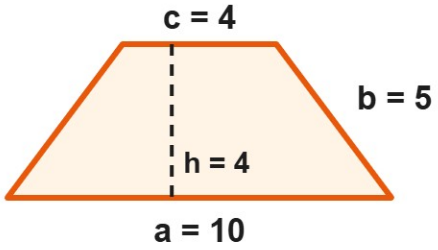

A = ____ cm² **U =** ____ cm

4

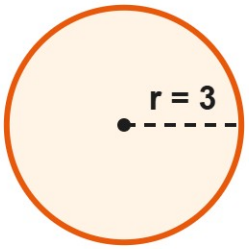

A = ____ cm² **U =** ____ cm

5

A = ____ cm² **U =** ____ cm

6

A = ____ cm² **U =** ____ cm

Tipp: Schreibe zuerst die Formel auf, dann setze die Zahlen ein.

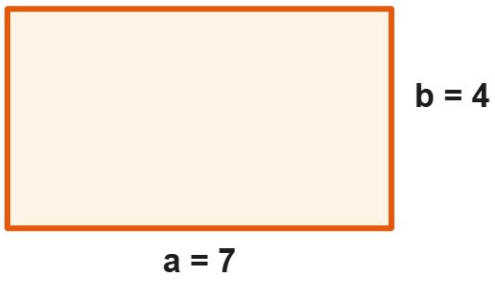

Lösung: Flächeninhalt gemischt

Sechs Formen, Fläche und Umfang

Name: _____

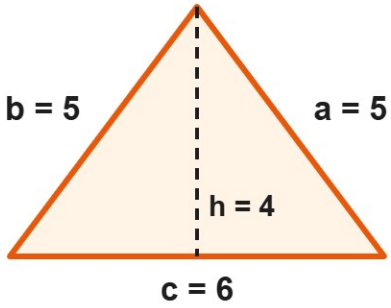

Berechne Flächeninhalt A und Umfang U. Alle Maße sind in Zentimetern. Achte darauf, welche Formel zu welcher Form gehört.

1

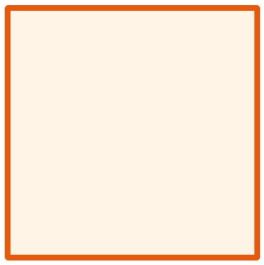

A = 28 cm² U = 22 cm

2

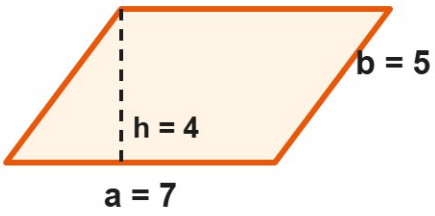

A = 12 cm² U = 16 cm

3

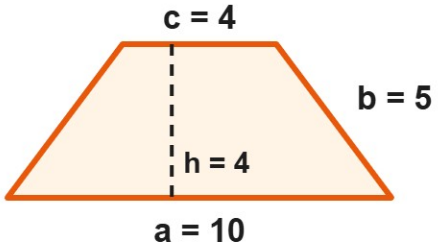

A = 25 cm² U = 20 cm

4

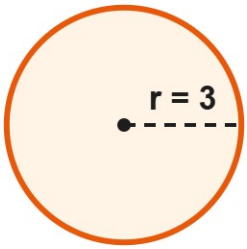

A = 28 cm² U = 24 cm

5

A = 28 cm² U = 24 cm

6

A = 28,27 cm² U = 18,85 cm

Tipp: Schreibe zuerst die Formel auf, dann setze die Zahlen ein.
